No additional funds are needed... there was sufficient funds left from the work completed...

Contract No. EP-S4-16-04

Task Order 028

Supplies or Services: DUNS Number: 008198421, Wilcox Oil Residence Site, Primary COTR/OSC: Steve Mason

Period of Performance: 08/15/2017 to 09/31/2018

Description of Amendment: This modification is hereby issued to extend the period of performance to 09/31/2018, so that work on the excavated residence can be completed. There are no additional funds for this modification.

Let me know if you need anything else... and when ERRS can start...

Thanks for all your help on this...

With Regards, Steve

 Good. If you need additional funds, I'll need a revised IGCE and an email from Ronnie approving it. Just send me the TO mod request extending the POP and, if needed, the IGCE and approval email, and I'll take care of it from there. Thanks!

 Hi Latrice,

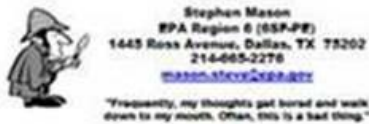

9964824

We (probably) need to have ER go back out to this residence and reseed the lawn. Can we just extend the TO POP and add funds, or does it need to be done under a new TO? Thanks!

What do we need to do to re-open the task order to have ERRS address this issue... ?

With Regards, Steve

Hi Steve, unfortunately there is no warranty on the seed since there are too many factors out of control of the subcontractor. We verified the coverage was adequate in all the excavated areas but have no control over the watering schedule or mowing. Couple factors that may be leading to the poor coverage:

1. We planted late last fall so the Bermuda seed probably stayed dormant over the winter. It appears the ryegrass was allowed to grow too tall before the first mowing based on the length of the grass clippings in the photos. The tall grass likely shaded out the Bermuda seed so it didn't germinate this spring. With regular watering and addition of fertilizer it still may take off.

2. With no irrigation system, lack of watering may also contribute to the spotty coverage.
Let me know your thoughts on how to proceed.

Evan

Hi Steve, give me a call when you get a chance to discuss options. I'm not sure how often (b) (6) watered after the hydroseed was installed or why the grass clumps in the photos are so thick in the seeded area. We can certainly reseed but the task order has expired.

Good morning! Attached are some photos of the removal area that was seeded at the (b) (6) property.

Thanks.
